

## **MAKING THE MOVE TO DYNAMICS AX GP TO AX, A COMPARISON OF APPLICATIONS AND TERMINOLOGY**

David Thomas, Adjunct Instructor, Tulsa Community College,  
Southeast Campus, 10300 East 81<sup>st</sup> Street  
Tulsa, OK 74133-4513  
bsolutionsllc@sbcglobal.net

**Abstract:** Both being considered ERP software programs, Dynamics AX and GP are intended for different types of end user organizations. This presentation is for those familiar with Dynamics GP who want to learn about the added functionality of AX, where to find familiar GP features and functionality within AX and how built in advanced functionality within AX simplifies its setup and use in the classroom.
